TOLIMA

Tolima is known for its coffee production. The region has a variety of climates and soils that enhance the quality of the beans. Colombian coffee is known for its robust body and vibrant acidity. Recently, the departments of Huila, Tolima, Cauca and Nariño have gained recognition as excellent coffee growing areas. Today, these regions account for the largest volume of coffee production in Colombia, strengthening the country's reputation as a world leader in high-quality coffee.
