Score: 78

CENTRAL HIGHLANDS OF VIETNAM REGION

Vietnam is one of the largest exporters of coffee in the world, and WetPolished coffee is highly valued for its superior quality.

Vietnam Wet Polished is a variety of robusta coffee that undergoes a wet polishing process to improve its appearance and quality. This drying process results in a high-value coffee in the market, making its value more expensive.

Grown in highlands, with high temperatures, abundant sunlight and high humidity, the beans mature slowly, creating richer and more complex flavors. It has a clean taste, notes of chocolate and full body, it has an 16 size grain
